THE COTTON OIL TRUST. Predictions That It Will Go to Par-Some Lucky Holders.

St. Louis Republican, 9th: Cotton Oil Trust certificates touched 58 in New York yesterday, an advance of three points since Monday. Six months ago, when the Republican gave the inside history of the American Cotton Oil Trust and its relations with the Standard Oil Company the certificates. Standard Oil Company, the certificates were selling at \$22, and some of the investors at these figures were lament-ing their hard luck in having such securities in their possession. The advance since that time has been steady and continuous, amounting to \$36 on each cert ficate, or over 150 per cent. Co ton seed oil has advanced during the same time from 3 to to 40c, the last advance of 2c occurring yesterday.

As stated some time ago some St. Louis holders, among the rest Moses Fraley and Ewing Hill, who were large owners of trust certifica es, sold out when the stock touched \$28, against the solvice of ioside parties. All who let their stock go are now cons derably depressed while the fellows who held on to the cartificates are correspondingly happy. Henry Haarst c, John Maxon, A. B. Strain, R. B. Brown, Rolla Wells and Wm. Nichols are some of the St. Louisans who have been enriched by the advance. The end is not yet in the opinion of some of these gentlemen, who tak confidently of \$100 for the certificates. Fraley had 1000 chares on which his profits would have been \$75,000.

Judging from the fact that oils have been put and the stocks have been advancing, the Trust must now own nearry all the desirable mills in the It is alleged that there is a short in-terest in New York that is in process of being squeezed out. The market
